

Jeff Kolesnikowicz

Senior Software Engineer

(416) 300-0036 | jeff@codepoets.ca | <https://hirejeff.tech>

EXPERIENCE

Diabsolut - *Engineering Manager*

2021 - 2022

Managed a team of 10 engineering staff with 6 located in Canada, and 4 in Ukraine.

- Helped to pay off a massive amount of technical debt. This involved transitioning to new processes, training employees on new technologies, and onboarding new hires efficiently.
- Tech stack included .NET, SQL Server, RazorPages

Medallia Inc (Zingle) - *Senior Software Engineer*

2019 - 2021

Transitioned a large code base into a microservice based application. Helped to onboard startup into enterprise processes. Facilitated scalability of the application by 500%.

- Helped to integrate a start-up into a large corporation. This involved transitioning to new processes, training employees on new technologies, and onboarding new hires efficiently.
- Developed and executed a roadmap for transitioning from a monolith architecture to a microservice-based architecture
- Tech stack included PHP, NodeJs, Go, Kubernetes, React, and microservices

Allied Health Media - *Senior Software Engineer*

2012 - 2019

Over the years I've repeatedly helped Allied Health Media take solid software ideas and re-architect them into scalable, maintainable codebases capable of supporting as much as 2000% more users every day.

- **Increased capacity of flagship software by 2000%**; from 100+ to 20,000+ users per day, and enabling **increasing active educational contracts from 5 to 250 separate universities**
- **Established and maintained industry-recognized code standards**

Code Poets - *Principal Consultant*

2001 - PRESENT

I specialize in paying off insurmountable technical debt through industry-standard best practice-based software re-architecture principles to solve unmaintainable legacy codebase problems.

- **Provide leadership, development, and software architecture expertise**

EDUCATION

Trent University - *Bachelor of Science, Hons. Computer Science*
